FirstPass STUDIO

● AUTOMATIC SEQUENCES ON

SEQUENCES AND AUTOMATION

Set it once. The show runs itself.

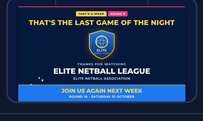

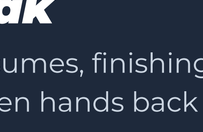

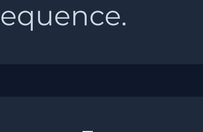

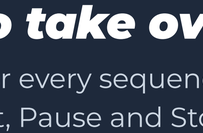

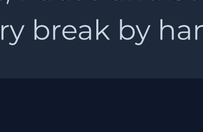

Sequences play the run-up, the breaks and full time from the PlayHQ game clock, with the music, the sponsors and the stats lined up. One operator, and nothing to call.

A NIGHT WITH THE SAMPLE LEAGUE

Who presses the button?

2	All
YOU	THE REST: STUDIO

Arrive	**Open the app.** Studio goes on air, picks tonight's first game on your court and follows PlayHQ. Turn the video output on.		YOU
15 min out	**Run-up starts by itself:** sponsor wall, match up and ladder in turn over the warm-up playlist, until 2 minutes before the start.		● AUTO
2 min out	**Walk out takes over:** The Clash smashes the logos together, the position match ups run GS to GK, the countdown holds for the first centre pass.		● AUTO
Q1 to Q4	**The scoreboard follows the scorer.** Super shots, hot streaks and big moments play by themselves; the super shot tab and song mark the last minutes.		● AUTO
Quarter time	**A few seconds after the siren:** shooting stats, the last 10 goals, the ladder and two sponsor ads over break music, round and round until play resumes.		● AUTO
Half time	**The same, plus Up next** and the ladder lower third, and the house ad when no sponsor has one due. Then back to Live game.		● AUTO
Full time	**After the final siren:** the winner celebration, the full time card, game stats, the score worm, a sponsor break and Up next.		● AUTO
Next game	**The board moves to the next game** on your court as its electronic scoring opens, back to Q1 with a full clock. Run-up starts again 15 minutes out.		● AUTO
Close	**Press Stream close.** The outro with the night's teams, and the sponsor report has the night's exposure ready to send.		YOU

Starts from the clock

Minutes before the game, at quarter, half or three quarter time, or after the final siren, from the PlayHQ scorer or your own.

You stay in charge

Hold a break back for a shot after the siren, or come back from a break early. One press, from the card or the Stream Deck.

Fills the break

Repeats until play resumes, finishing the graphic on screen, then hands back to Live game or to the next sequence.

Brings its own music

Playlists with fades and a start mark, levelled loudness, and music that ducks under a video or an interview on court.

Sells the sponsors

A Sponsor ads step plays the next ads due, taking turns fairly by tier, and its time on screen goes into the proof-of-play report.

One press to take over

A Stream Deck key for every sequence, scene and source, with Next, Pause and Stop. Untick one switch to call every break by hand.

PUT YOUR PRODUCTION ON AUTOPILOT
