FirstPass STUDIO

BROADCAST GRAPHICS FOR NETBALL

Every goal. Every quarter. On screen.

FirstPass Studio turns your competition's PlayHQ data into broadcast graphics for your livestream, run from one Mac.

1 s

The score, quarter and clock from the PlayHQ scorer, read as often as every second.

31

Broadcast graphics, from the scoreboard and ladder to the sponsor wall.

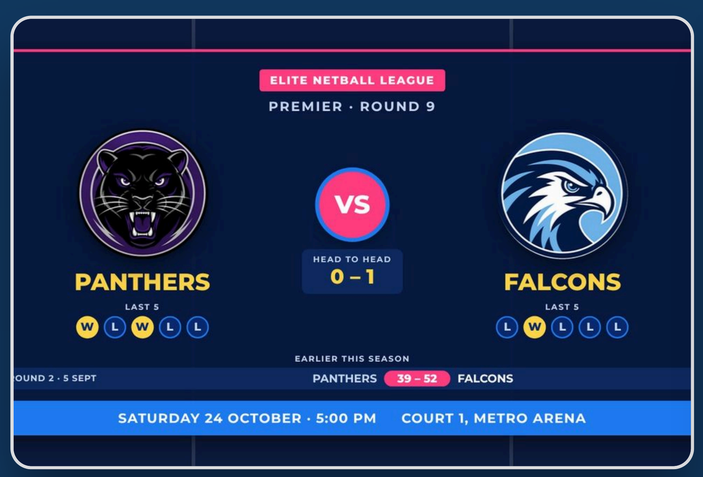

17

Competition logo animations, plus six intro and outro styles.

1

Operator. Sequences run the warm-up, the breaks and full time.

PLAYHQ → FIRSTPASS STUDIO → YOUR LIVESTREAM

PREMIER COMPETITIONS

Look like a pro league.

Every club in its own logo and colour. Super shots, hot streaks and full time stats play by themselves, and sponsors get a proof-of-play report.

NETBALL WA · STATE LEAGUES

Every league, its own look.

One setup per competition, rules by division, and a template file that carries a whole competition, logos and sponsors to another Mac.

AMMNA · NATIONALS

Carnival days, handled.

Studio picks each game on your court as its scoring opens, moves "this round" on through the day and thanks viewers after the last game.
