1P STUDIO

Game on.

Live netball graphics from PlayHQ for your **stream**, your **big screen** and your **socials**.

Made for netball
BY PIVT

Your night, levelled up.

Live from PlayHQ

Scores, the clock, ladders, fixtures and line-ups come straight from PlayHQ. Nobody types on game night.

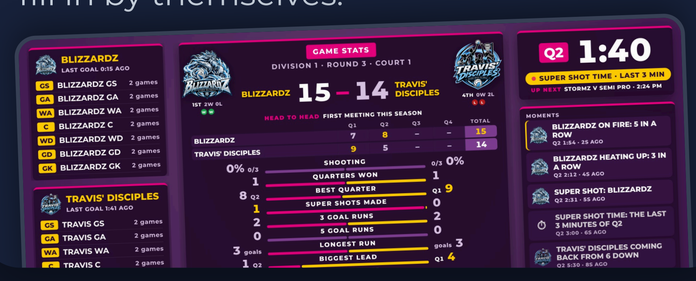

Socials in a click

Results, match-ups, ladders and top shooters become Instagram posts, in square, portrait or Story sizes.

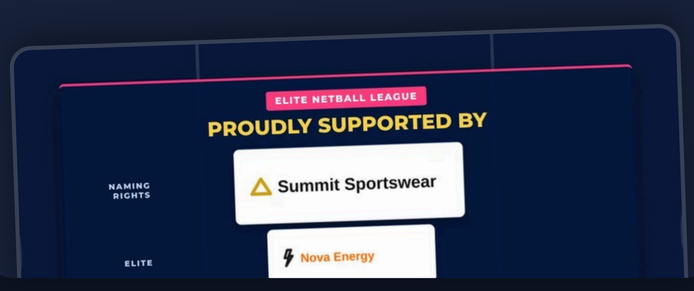

The commentary desk

Plan who's on the mic for the whole season. Their names and live game stats fill in by themselves.

Sponsors everywhere

Logos go on the stream, the big screen and every post, with a report of how much airtime each sponsor got.

Big moments

On fire, comebacks, lead changes and super shots pop up as they happen, and each one has a sponsor's name on it.

Run it with two

Sequences follow the game clock, and Stream Deck keys handle the quick calls by hand.
