FirstPass STUDIO

● LIVE FROM PLAYHQ

BROADCAST GRAPHICS FOR NETBALL

Your league, live on air.

FirstPass Studio turns the PlayHQ data your competition already has into broadcast graphics for your livestream. One Mac, one operator, and nothing to type in during the game.

1 s

The score, quarter and clock from the PlayHQ scorer, read as often as every second.

31

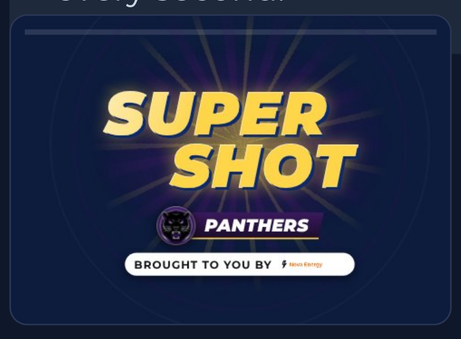

Broadcast graphics, from the scoreboard and ladder to the sponsor wall.

17

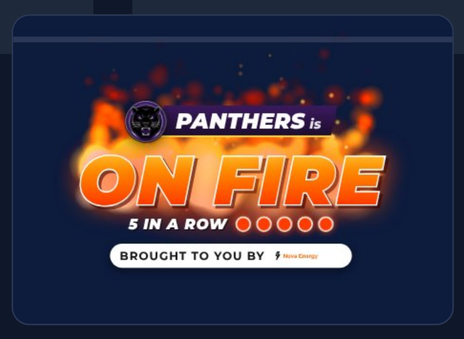

Competition logo animations, plus six intro and outro styles.

1

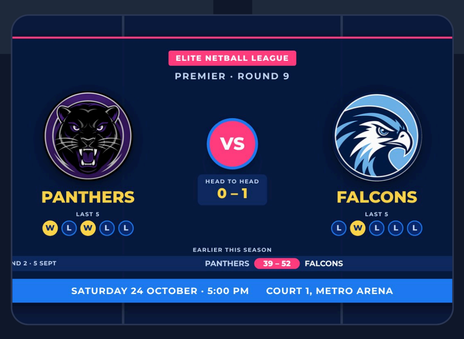

Operator. Sequences run the warm-up, the breaks and full time.

Super shots play by themselves

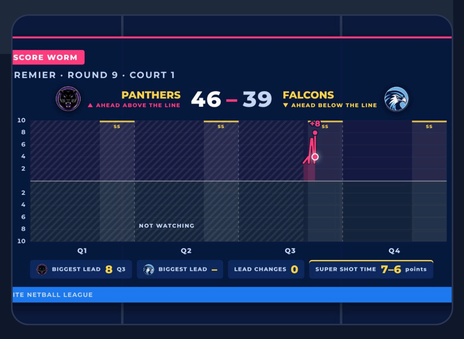

Hot streaks from the goal order

Match ups form and head to head

Line-ups with athlete photos

Score worm and game stats

PREMIER COMPETITIONS

Look like a pro league.

The scoreboard follows the PlayHQ scorer, quarter and clock included.

Every club in its own logo and colour, in every division.

Ladder, fixtures, team lists, shooting stats and full time cards, built for you.

NETBALL WA · STATE LEAGUES

Every league, its own look.

One setup per competition: PlayHQ link, rules, finals, colours, font and logos.

Rules by division, like super shots in one and not another.

A template file carries a whole competition, logos and sponsors to another Mac.

AMMNA · NATIONALS

Carnival days, handled.

Studio picks each game on your court as its electronic scoring opens.

"This round" moves on as each round's first game comes up.

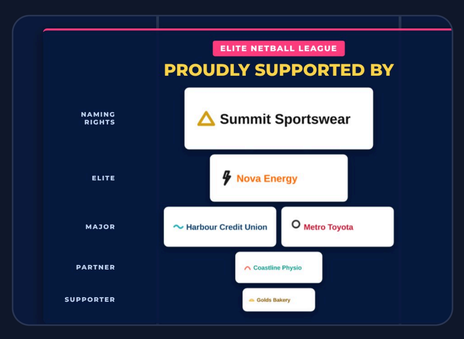

Finals formats drawn week by week, Up next on the same court, and a thank-you card after the last game.

SPONSORSHIP

Sell it. Show it. Prove it.

Tiers from naming rights down, sponsored super shots and streaks, ads that take turns in the breaks, a vacancy card with its own QR code, and a proof-of-play report of minutes on screen and viewer-minutes for every sponsor.

PLAYHQ → FIRSTPASS STUDIO → YOUR SWITCHER
